

# Document Handling Strategic Planning

## Products and Services

PUROSolutions Limited

### Are your Document Management costs under control?

It is estimated that the equivalent of around **3% of all revenue** is spent on document output. This figure **rises to around 13%** of the company turnover figure, once document production and document storage is taken into consideration. (Xerox claim that document costs are between 5%-15%)

Do you know the total cost of ownership for all your Photocopiers and Printers?

Do you know what you are spending on Printer Consumables?

Do you know what it actually costs to print in colour?

Are you utilising lease cost print options across your Network?

Is your service provider giving you value for money?

#### Do you have a Document Handling Strategy?

**PUROSolutions** provide all the answers to these questions, and more importantly **PUROSolutions** provide a clear Document Handling

Strategy that delivers the very best **Return On Investment**.

Do not consider purchasing additional Photocopiers or Printers without first taking independent advice from

**PUROSolutions** Limited
